2015 Tour - Channel Islands and Brittany (24 Sept to 2 Oct)

Organ Club members are invited to take part in a very rare opportunity to visit organs in Jersey, Guernsey and Brittany. Our visits will start in the late afternoon of Thursday 24 September. We will stay in St Helier, Jersey, looking at organs there and travelling around the island. We will spend one day in Guernsey, which has also some interesting churches and organs.

On Monday 28 September the party will travel by ferry to St-Malo (64km). We will stay in the historic town of Dinan and travel to see the most interesting instruments in this area. These will include instruments by Cavaillé-Coll but will also give us an opportunity to become acquainted with instruments by many other French builders. Jean Langlais was a Breton and he advised on the organ at the cathedral of Dol-de-Bretagne. Our visits will include organs in St-Malo and the 1851 London Exhibition organ by Ducroquet in Vitré. The last day will be spent in Rennes including a visit to the two organs in the Cathedral.

The total cost of the tour will be around £580 per person in a shared room and £790 for single occupancy, with a limited number of single rooms at a slightly lower price. For an itinerary and booking form, please contact the Treasurer, Colin J Brookes, 83 Castle Road, Hartshill, NUNEATON CV10 0SG (colin@colinjbrookes.co.uk or 02476 398940). You will need to return your completed booking form **by 6 July 2015 at the latest.**

CLUB MEETINGS

THURSDAY 2 JULY (evening meeting) GUILDFORD CATHEDRAL Stag Hill, Guildford, Surrey GU2 7UP

I have arranged a weekday evening meeting here, the advantage being that we will be able to attend Choral Evensong at 1730, sung by the excellent choir. Music: Lloyd Responses; Psalms for the 2nd evening; Canticles Sumsion in G; Anthem Give us the wings of faith, Bullock.

At 1830, Organist & Master of the Choristers, Katherine Dienes-Williams, will demonstrate the organ, after which members will be able to play.

This will be the last chance to hear the organ before major restoration work is carried out in the cathedral. The organ will then be rebuilt by David Wells. The work on the cathedral and organ will not be finished until 2017.

The organ was installed in the cathedral by Rushworth & Dreaper in 1961; it used as a basis the four manual organ from Rosse Street Baptist Church, Shipley, Yorkshire, which had been built by Nicholson of Bradford in about 1866, and enlarged by Harrison & Harrison in 1899. It was enlarged when it was installed at the cathedral, and a new positive section in the gallery opposite the console was added in 1962. The specification was drawn up in consultation with Barry Rose (the first organist). There are 4 manuals and 77 speaking stops. The organ has been tuned and maintained by B C Shepherd and Sons for the past 12 years; they overhauled the positive section in 2009.

Please make sure that if you cannot attend Choral Evensong you get there before 1830 when the main meeting will start. The building will be locked then, so latecomers will not be able to get in. Please let me know if you intend to come (eric@shepherd0001.fsnet.co.uk) (020 8958 2461) by **Saturday 28 June**.
